

## **A celebration of great depth and breadth.**

Yes, that applies to the product itself — with calipers  
up to 48 pt and a wide variety of sizes available.

But this also applies to our entire Tango® portfolio, with  
solutions for virtually any commercial print need — from  
digital to offset to wide format. All supported by the unrivaled  
availability made possible through our strong North American  
service platform, with hundreds of commercial print products  
available locally, to ship the same or next day.

**The quality you need. When and where you need it.**

**That's worth celebrating.**

## You can count on Tango®

**The perfect shade.** Its clean-white color is perfect for achieving rich printed images with greater depth and natural flesh tones. No wonder more consumers prefer the shade of Tango.

**Sturdiness.** Tango is as much as 80 percent sturdier\* than coated free sheet cover. That means Tango printed pieces feel more substantial and higher quality in consumers' hands, which helps strengthen brands, influence consumers and lift response rates.

**Consistency.** Tango always gives you a clean-white shade, side-to-side and across all calipers, grades, and sizes — meaning you can count on it to represent brands consistently, whether you are printing digitally or offset, from that first engagement with a direct mail piece or brand to the last engagement with in-store signage.

**Reliability.** Runnability is not something you simply claim. It's something you have to earn. And over the years, Tango has certainly earned its reputation for exceptional runnability. Printers today can count on Tango for the same attributes they've been trusting for years: sheet cleanliness, excellent ink lay-down and trouble-free performance, whether it's on press or finishing.

**Responsibility.** All WestRock North American paperboard mills are certified to the SFI®, PEFC™ and FSC® Chain of Custody standards.\*\* All Tango products are recyclable.

\*Sturdiness based on Tango C2S Taber Stiffness measure compared to coated free-sheet at equivalent cover weights.  
\*\*Contact your WestRock sales representative for certified fiber availability for Tango products.

# Tango® Digital

The Tango Digital difference: All of the impressive qualities of Tango C1S and C2S, optimized for digital performance.

**Universal.** Engineered to perform flawlessly on the full range of digital production color presses, including HP® Indigo, Kodak® NEXPRESS, Xerox® iGEN®, Canon® imagePRESS®, Konica Minolta® bizhub® and RICOH® Pro.

**Consistent.** Matches the clean-white shade of all Tango paperboard products to provide cohesive aesthetics across printing platforms.

**Optimal image quality.** Proprietary digital coating ensures optimal ink transfer and adhesion during the electrophotography process.

**Jam-free performance.** Ensured by controlled moisture, precision cutting tolerances.

**Convenient.** Packaged in convenient ergonomic cartons (≤ 50 lbs each) and efficient press-ready single-tier skids for HP Indigo 10k, 12k, 15k, and 100k presses.

**FSC® Certified.** All Tango Digital paperboard is FSC Chain of Custody Certified.

### Additional Certifications:

Certifications for coated side:  
HP Indigo certified by the Rochester Institute of Technology. Kodak NEXPRESS qualified by the Rochester Institute of Technology.
