

Angelcote®

Low Density Coated Recycled Board

Angelcote® Low Density Coated Recycled Board (CRB) is a Fourdrinier-formed, fully-coated premium recycled paperboard. Compared to a standard coated recycled board, Angelcote Low Density CRB offers superior smoothness and uniformity for exceptional printability. Angelcote is an ideal recycled alternative for applications where brand integrity and shelf appearance are important.

Qualities:

- 100 percent recycled
- Smooth, bright clay-coated surface for eye-catching graphics
- Available with a variety of sizing options
- Available in lower calipers
- FDA-compliant for direct food contact

Best suited for:

- Dry food such as cookies, crackers and cereal
- Film and foil-laminated packaging
- Shipping envelopes
- Top sheet and other litho-laminated applications

Environmental attributes of RockTenn CRB:

- 100 percent recycled fiber with an average of 35 percent post-consumer content
- Requires 70 percent less total energy and 90 percent less water to produce when compared to similar substrates
- CRB is recyclable* - and is the most recovered packaging material in the U.S.

*Packaging may not be recyclable in your area.
